8. Attentions and Q & A:

A. How to reconnect and operation when failed to reconnect ?

When M99+ connected with your mobile phone successfully at the first time, it will search and reconnect the paired device automatically when power on, If failed, please pair and connect again. The headset can reconnect in 10 minutes, if over 10 minutes will power off automatically, disconnect in long distance will notice "Your headset is disconnected".

B. How to delete paired records?

In power on state, long press the volume+,volume-,MFB for 5 seconds to clear the pairing record. The indicator Blue and Red LED flash once at the same time that means the pairing record has been cleared, and the M99+ will not connect the connected device. When there are various connection problem, try clearing the pairing record firstly.

C. What' s the password for pairing?

Some connection devices require password for pairing, pls try 0000 or 8888 or 1111 or 1234.

D. What devices could charge for the headphone?

Any car charger, power bank, PC etc which meet DC 5V , charging current more than 500mA could be charge for this item.

E. How to do if can not power on or connection problem?

Please try to reset the headphone, long press MFB and plug charging cable, it will reset to power off, then power on to use.

F. Why power off automatically?

No connection for over 10 minutes or battery voltage is less than 3.1V.

G. Three-way calling function operation

Call coming during call, short press the MFB to answer the new call and hang up the current call;

Call coming during call, double press the MFB to answer the new call and keep the current call;

Call with a new call coming, long press the MFB for 2 seconds rejecting the new call.

When you are during a three-party call, double press the MFB to switch audio between the current call and the keep call.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
