USER'S MANUAL

❁Bluetooth®

■Bluetooth wireless technology

Bluetooth wireless technology allows you to connect compatible communication devices without cables .A Bluetooth connection does not require that the phone and the headset be in line of sight , but the devices should be within 10 meters of each other. Connections can be subject to interference from obstructions, such as walls, or other electronic devices.

The headset is compliant with the Bluetooth Specification 2.0+EDR supporting the following profiles: Bluetooth V1.1 and Bluetooth V1.2.
■Overview

The headset contains the following parts:
- Charger connector（A）
- Multi-function button（B）
- LED（C）
- Volume button +(D)
- Volume button (E)
- Microphone（F）
- Earloop（G）

Before you can start using the headset, you must charge the battery and pair the headset with a compatible phone.

Note: Part of the headset are magnetic. Meallic materials may be attracted to the headset. Do not place credit cards or other magnetic storang media near the headset, because informationstord on them may be erased

1

■Chargers and batteries

Check the model number of any charger before using it with this device.

Warning: Use only batteries and chargers approved for use with this particular enhancement. The use of any other types may invalidate any approval or warranty, and may be dangerous.

For availability of approved enhancements, place check with your dealer. When you disconnect the power cord of any enhancement, grasp and pull the plug, not the cord.

■CHARGE You headset's Battery

Charge your headset's battery for 2 hour:

●Plug the charger into the top of the headset.

■CHANGING FOR USE ON OTHER EAR

You can wear your headset on your left or right ear, the headset comes ready for the right ear, to change the headset for the left ear:

■MAKING CALLS

Make a voice dial call	Tap the Multi-function button and speak the name after the tone
End a call	Tap the Multi-function button
Put an active call on hold or resume a call on hold	Press and hold the Multi-function button until you hear a beep.
Receive a call	Tap the Multi-function button
Reject a call	Press and hold the Multi-function button until you hear a beep
Answer a second incoming call	Press and hold the Multi-function button until you hear a beep

Note : your device supports both handsfree and headset profiles accessing call functions depends upon which profile your phone supports, see your phone's user's guide for more information

■MAKING CALLS CONTINUED

Toggle between two active calls	Press and hold the Multi-function button until you hear a beep.
Transfer a call from the phone to the headset	Press and hold the Multi-function button until you hear a beep
Mute or unmute a call	Tap the Volume button -until you hear a beep
Redial last call	Press and hold the Multi-function button until you hear a beep. Then Tap the Multi-function button

■INDICATOR LIGHTS
The indicator light provides information about your headset status
With the charger plugged in

Red LED On(steady)	Charging in progress
Red LED Off	Charging complete

With the charger plugged off

Red LED rapid flashes for 3 times	Power off
blue indicator light flash with the red indicator light	Pairing mode
Blue LED rapid flashes for 3 times	Pairing successful
Slow pulse	Connected(on a call)
Slow flash	Standby (not on call)

Note : The headset will power off if it is not connect about 10 minutes

■AUDIO TONES
The audio tones provide information about your headset status

Single high tone when pressing volume button	Volume at minimum or maximum
one rapid low tone repeated every 10 sec.	Low battery
No audio indications deteriorating quality	Out of range
Fang tone	Incoming call
Single high tone	Pairing confirmation
Single low tone	Voice activation
Dual high/low tone	Voice tag not recognized
Single high tone	End call
Low to high tone	Phone network not available
Two ascending tones	Mute enabled
Two descending tones	Mute disabled

■Specification

- Product Model NO.: BTH-015
- Standard convention: Bluetooth V2.0+EDR ,Class II
- Frequency Band: 2.4GHz~2.4835GHz ISM Band
- Talk time: about 5 hours
- Standby time: about 90 hours
- Supporting Profile: headset &handsfree
- Connection: Peer to Peer
- Power Capacity: Rechargeable Li-Polymer
- Power Supply: DC5.1V, 100~240V AC adapter
- Operation Temperature: -10~55℃
- Facility Saving Temperature: -20~60℃
- Operation Moisture: 10%~90% (non-concrete status)
- Weight: 11.82g
- Size: 41.2*18.9*22.9mm

■Battery information

Your device is powerd by a rechargeable battery. The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times,but it will eventually wear out.Recharge your battery only approved chargers designated for this device.

Unplug the charger from the e,ectrical plug and the device when not in use.Do not leave a fully charged battery connected to a charger,since overcharging may shorten its lifetime.If left unused,a fully charged battery will lose its charge over time.

Never use any Charger that is damaged.

Leaving the device in hot or cold places,such as in a closed car in summer or winter conditions,will reduce the capacity and lifetime of the battery.Always try to keep the battery between 15℃ and 25℃ （59 °F and 77 °F）.A device with a hot or cold battery may not wrk temporarily,even when the battery is fully charged.battery may not wek temporarily,even when the battery is fully charged.Battery performance is particularly limited in temperatures well below freezing.

Do not dispose of batteries in a fire as they may explode. Batteries may also explode if damaged.Dispose of batteries according to local regulations.Please recycle when possible. Do not dispose as household waste.

■Care and maintenance
You device is a product If superior design and craftsmanship and should be treated with care.the suggestions below will help you protect your warranty coverage.
● Keep all accessories and enhancements out of the reach of small children.
● Keep the device dry.Precipitation,humidity,and all types of liquids or moisture can contain minerals that will corrode electronic circuits.If your device does get wet \,allow it to dry completely.
● Do not use or store the device in dusty,dirty areas.Its moving parts and electronic components can be damaged.

- Do not store the device in hot areas.High temperatures can shorten the life of electronic devices,damage batteries,and warp or melt certain p;astics.
- Do not store the device in cold areas.when the device returns to its normal temperature,moisture can form inside the device and damage electronic circuit boards.
- Do not attempt to opn the device.
- Do not drop,knock,or shake the device.Rough handling can break internal circuit boards and fine mechanics.
- Do not drop,knock,or shake the device.Rough handling can break internal circuit boards and fine mechanics.
- Do not sue harsh chemicals,cleaning solvents,or strong detergents to clean the device.
- Do not paint the device.paint can clog the moving parts and prevent proper operation.

All of the above suggestions apply equally to your device, battery,charger,or any enhancement.If any device is not working properly,take it to te nearest authorized service facilith for service.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference

to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with Part 15 of FCC RF Rules. Operation is subject to the following two conditions:

1) this device may not cause interference and

2) this device must accept any interference, including interference that may cause undesired operation of the device.
